Powering a sustainable future

a We are proud to offer a range of products made from recycled materials and items that are entirely biodegradable. These eco-friendly options help **reduce waste** and **promote sustainability**. You can easily spot them in our catalog by looking for the  icon, making it simple to choose environmentally responsible products.

a Our **PANAREA collection** features rugs crafted from high-quality New Zealand wool leftovers, sorted by colour into different categories. Each rug is **unique** in its own way, while still maintaining a consistent look with others in the same colour group. Discover this one-of-a-kind, eco-friendly design on page 86 of our catalog.

a We have the majority of our rugs **woven locally**, helping to significantly reduce our ecological footprint. By choosing local production, we **minimize transportation**, ensuring **a lower environmental impact**.

a Most of our products can be **custom sized**. Did you know that we offer the option to have leftover materials finished at a minimal cost? This allows us to **reduce waste**. Don't forget to ask us to finish the leftovers.

a The wool used in our **CHIARA rugs** is completely natural, with no chemicals used. The color you see is the **natural color of the sheep's wool**. Additionally, the viscose in these rugs is made from **recycled** wood fibers, ensuring an **eco-friendly and sustainable product**.

Augmented Reality

Visualize your rug with Augmented Reality and integrate it in your interior

With your smartphone or tablet:

- Scan the QR code on your sample or on the desired page of your catalogue
- Take a picture of the area where you want to visualize or upload a photo of your interior
- Choose the color and the dimensions of your rug

On the Acvento webshop:

- Choose a rug and click on the HOME VISUALIZER button
- Upload a photo of your interior or choose an existing setting
- Click on the location where you would like to place the rug, then choose the color and dimensions of your rug
